

3D Printing

3D Printing

Times	Name	Topic
10.25-10.30	Oliver Smith, Founder, Principal Consultant, Rethink Additive	Opening Remarks
10.30-10.50	Len Pannet, Managing Partner, Visagio Ltd	3D Printing Your Way to a Resilient Supply Chain
10.50-11.10	Miquel Fernandez-Vicente, Design for Additive Manufacturing Product Development Lead, The National Centre for Additive Manufacturing	3D Printing for functional applications, where do I start?
11.10-11.50	Oliver Smith, Founder, Principal Consultant, Rethink Additive	Building a (secure) business in an era of disruption
11.50-12.10	Colin Barker, Chief Scientific Officer, BiologIC Technologies Ltd.	Powering the Bio-revolution with Multi-material 3D Printing; 3D architectures for direct-to-manufacture and scale-out manufacturing of bio-products
12.10-12.30	Cem Severcan, MD, PLG GLOBAL LIMITED	Paradigm Shift of 3DP Service Bureaus Business Model
12.30-13.30	Lunch Break & Networking	
13.30-13.50	Rob Weinert-Aplin, Patent Attorney, HGF Limited	Is 3D printing changing the status quo for manufacturers and the supply chain?
13.50-14.10	Joseph Godfrey, 3D Print Specialist, Tri-Tech 3D	Tri-Tech 3D Additive Manufacturing Solutions
14.10-14.30	Filomeno Martina, CEO, WAAM3D Limited	Multi Metre Metal 3D printing
14.30-14.50	Yann Rageul, Head of Manufacturing Solutions EMEA & Asia, Stratasys	Solving supply chain challenges with 3D printing
14.50-15.10	Martin Forth, C.R.O, Raplas Technologies	3D Printing and it uses
15.10-15.30	Ian Smith, Strategic Sales, Additive-x Ltd	From Prototyping to Production – 3d printing supporting Supply Chain
15.30-15.50	Johnathan Rowley, Design for Additive Manufacturing Consultant / Educator, Advanced SLS	What adopting AM really means and the rules for Designing 3D printed parts for value
15.50-15.55	Oliver Smith, Founder, Principal Consultant, Rethink Additive	Closing Remarks

Manufacturing
